John Zoski is always willing to help others anytime of the day or night, even when he's not required. John also receives phone calls day or night from numerous technicians needing his assistance multiple times a week and guides them with whatever they are needing help with and even coming into work to assist. On August 13, 2022, John was called by a technician needing assistance with a touchscreen at the Adult Detention Facility. John was able to walk the technician through the issue and repair the issue. On August 21, 2022 John was called on two different occasions regarding touchscreen issues and intercom issues at the Adult Detention Facility. John was able to walk the technician through to fix the issues. On August 23, 2022 there were more issues with the touchscreens at the Adult Detention Facility. John was scheduled for Paid Time Off on this date and was able to assist with the issues, but since the issue couldn't be resolved, John came in early the following day to fix the issue as soon as possible. John's willingness to guide and help others has prevented Life and Safety Issues with the Adult Detention Facility that are requirements of the State of Texas Jail Standards.
