From June 15 until now, Vicky has worked to maintain the Collin County COVID-19 Dashboard and has added value for local citizens by querying out city data to apprise communities of their status within the big picture of the pandemic. She has worked after hours on multiple occasions, attended numerous web conference sessions, worked on the weekends, and worked during her scheduled time off. She has been very dedicated to working with our local cities to provide the data they have come to expect.

She has automated processes with scripting and devised ingenious solutions to keep the dashboard as accurate as possible and has responded without fail to all challenges put before her. The cities in Collin County would not have the data they expect without Vicky providing it. She has done all of this with incredible patience and a smile. She has really gone the extra mile!
