Subject: Transfer staff

Capt. McCraw,
I just wanted to take a moment to tell commend your transfer staff. Regrettably I do not know their names. but there were two male officers and a female working in court 2 this morning. They assisted with inmate

I observed the interactions of these staff members with the inmate as we were preparing to have a bond hearing. The inmate was deteriorating and would not leave the holding cell. The officers all treated him with kindness and attempted to coax him out versus aggressive behaviors, that could have escalated the situation.

Later in the courtroom the inmate appeared to quickly shift moods. I believe, had officers not handled the situation correctly, the result would have been very bad and required some use of force. When the inmates mood became agitated, I watched the officers move into position so they could control the situation if it escalated. In doing so they still remained calm and patient, and did not close in and make the inmate feel penned, which would have been volatile.

Your officers demonstrated compassion and the ability to control the situation without escalating it and using force. What a great example of the great personnel and training in the sheriff's department.
