In the months of March, April, and May 2015, Lt. Frizell was instrumental in the process of implementation and coordination with a contract vendor as they offered a new inmate commissary system for the entire jail environment.

A hardware/software program was offered by the vendor that allows commissary to be purchased by inmates via a Kiosk system. Furthermore, the system provides processes for written communication from inmate to staff. Consequently, management welcomed this tool and facilitated the communications aspect by its inclusion as well.

In addition, Lt. Frizell was crucial in the process of training jail staff to be familiar with the software to ensure buy-in and successful daily operations.
